## BESPOKE STATIONERY FOR PERSONAL CORRESPONDENCE

**Hieronymus creates inspirational opportunities for those personal moments. All the products are linked to the needs and demands involved in personal exchanges. This core idea is always present, everywhere. Based on individual choices, personal stationery of exquisite quality meeting the highest contemporary design standards is produced in our own workshops.**

The prototypical image of the handwritten letter contains much of what Hieronymus represents. A letter, carefully written by hand, identifies the writer as a person of awareness, who takes the time to reflect on his fellowmen and meet them with style. The letter creates strong personal moments full of poetry, both for the writer and the recipient – ideally, perfectly designed with a bespoke letterhead from Hieronymus.

### **Expert printing craft with contemporary flair**

Hieronymus creates stationery products of the highest craftsmanship. Scripts in traditional letterpress have depth and contours, conveying an impression not only to the eyes but also to the touch. Embossing techniques such as blind embossing or hot foil stamping create great plasticity and fascinating contrasts in material. Silver head trims turn every page, every visiting card into something precious. Observing the highest contemporary design standards, our workshops produce personal stationery of exquisite quality.

### **Personal correspondence for today's connoisseur**

Bespoke personal stationery is based on a well-conceived system of typographic and design elements. With a choice of materials and colour combinations – or the addition of a personal monogram – beautiful objects become an expression of individual style. The wide repertoire of co-ordinated lettering, decoration, colours, printing methods, paper and layout variations, offers maximum scope and the reassurance of perfect design.

Hieronymus supports the desire for unique stationery, suited to each personality, with skilful advice, sensitivity and creative finesse. From the wide choice of options, together with the customer we select those which best express his/her individuality and combine them to create distinctive, stylish personal stationery.

Customers receive comprehensive personal advice at the Flagship Store, Bäregasse 10 in Zürich.

### **BRIEF PORTRAIT**

Hieronymus is known for high-quality articles of paper and writing culture. The product range comprises all requirements for personal correspondence, from hand-bound notebooks to top-quality writing implements and premium-grade leather bags. Each article is designed in our own atelier and manufactured in our Swiss production facilities or by European specialists in line with strict handcrafting standards. The interplay of finest materials, contemporary design and authentic craftsmanship results in objects which are aesthetically pleasing and highly functional for stylish people with a feeling for beauty and poetry. The products are available at the Flagship Store, Bäregasse 10 in Zürich and the Hieronymus Online Shop.
